

**FLAG{king\_is\_safe}**

Location: HomeFragment.java

After clicking on the server error text twice, I got the flag as a toast message.

You click on it twice and you get the toast.

Same ASCII "FLAG{ " format detected decoding to FLAG{king\_is\_safe}

```
HomeFragment x
});
checkFirstStart();
return viewOnCreateView;
}

/* JADX INFO: Access modifiers changed from: private */
84 public static final void onCreateView$lambda$3(HomeFragment homeFragment, View view) {
85     int i = homeFragment.clickTracker + 1;
86     homeFragment.clickTracker = i;
87     if (i == 2) {
88         homeFragment.clickTracker = 0;
89         int[] iArrPlus = ArraysKt.plus(new int[]{70, 76, 65, 71, 123}, new int[]{107, 105, 110, 103, 95, 105, 115, 95, 115, 97, 102, 101, 125});
90         ArrayList arrayList = new ArrayList(iArrPlus.length);
91         for (int i2 : iArrPlus) {
92             arrayList.add(Character.valueOf((char) i2));
93         }
94         Toast.makeText(homeFragment.requireContext(), new String(CollectionsKt.toCharArray(arrayList)), 1).show();
95     }
96 }
