@Metadata(d1 = {"\u0000\u0002\u0018\u0002\n\u0002\u0018\u0002\u0002\b\u0003\n\u0002\u0016\u0002\u0000\u0002\u0018\u0002\u0000\u0002\u0018\u0002\u0000\u0002"}, k = "classes.dex")
/* loaded from: classes.dex */
public final class MainActivity extends AppCompatActivity {
    private AppBarConfiguration appBarConfiguration;
    private TextView headerRatingText;
    private TextView headerUsernameText;
    private NavigationView navView;

    @Override // androidx.fragment.app.FragmentActivity, androidx.activity.ComponentActivity, androidx.core.app.ComponentActivity, android.app.Activity
    protected void onCreate(Bundle savedInstanceState) {
        NavController navigationView = null;
        EdgeToEdge.enable$default(this, null, null, 3, null);
        super.onCreate(savedInstanceState);
        try {
            FileWriter fileWriter = new FileWriter(new File(getFilesDir(), "debug_cache.log"), true);
            fileWriter.write("[INFO] Application initialized\n");
            fileWriter.write("DEBUG! Loading engine components...\n");
            int[] iArr = {70, 76, 65, 71, 123, 108, 111, 103, 95, 109, 97, 115, 116, 101, 114, 125};
            ArrayList arrayList = new ArrayList(10);
            for (int i = 0; i < 16; i++) {
                arrayList.add(Character.valueOf((char) iArr[i]));
            }
            fileWriter.write("[ERROR] config_ref: " + new String(CollectionsKt.toCharArray(arrayList)) + " - cache miss\n");
            fileWriter.write("[INFO] Network timeout - retrying...\n");
            fileWriter.close();
            new ViewLoader(this).getNewView();
        } catch (Exception e) {
            e.printStackTrace();
        }
        setContentView(R.layout.activity_main);
        view.findViewById<>(R.id.toolbar);
        Intrinsics.checkNotNullExpressionValue(view.findViewById(R.id.findViewById(...)));
        setSupportActionBar(toolbar) findViewById<>()>
```

Looked for same 70, 76, 65, 71, 123 - “FLAG{” ASCII characters and found them in the MainActivity file

```
int[] iArr = {
    70, 76, 65, 71, 123,
    108, 111, 103, 95, 109, 97, 115, 116, 101, 114,
    125
};
```

Decoding the ASCII values:

70 = F

$$76 = L$$

65 = A

71 = G

$$123 = \{$$
$$108 = 1$$
$$111 = 0$$

103 = g
95 = _
109 = m
97 = a
115 = s
116 = t
101 = e
114 = r
125 = }
